Section E (Service Loss Notices)

This section should only be completed by a station if the FCC's Signal Loss Report, available on <http://www.dtv.gov>, predicts that 2 percent or more of the population in that station's Grade B analog service contour will not receive that station's digital signal (See 47 C.F.R. § 73.674(b)(5) for additional details). "Phased transition" stations are exempt from this requirement unless their full authorized facility is predicted to experience this 2 percent or greater loss.

A station that will experience a substantial service loss when transitioning from analog to digital must air service loss notices, of no fewer than 30 seconds, daily between 8 a.m. and 11:35 p.m. At least three service loss notices per week must air between 8 p.m. and 11 p.m. in the Atlantic, Eastern and Pacific time zones, and between 7 p.m. and 10 p.m. in the Mountain, Central, and Alaskan time zones. Did your station run these notices, in addition to any other consumer education efforts required by these rules?
